

JOB DESCRIPTION

Title	: Night Pusher	Job Classification Number	: N 0000
Department /Project	: Operation	Job Family Name	: Operation
Reports to	: Toolpusher	Effective Date	: 01 March 2014

MAIN PURPOSE OF JOB

Supervise all drilling operational matters for Senior Tool Pusher and direct and assist the Driller during drilling at all times when designated to do so by the Tool Pusher. Assist in organizing and supervising casing and cementing operations for the Tool Pusher and coordinate with Drilling Departments and the Operation.

JOB OBJECTIVES

1. Assist in ensuring that appropriate well control measures are taken including training of personnel in well control and ensuring all pertinent well data is maintained and reported.
2. Ensure that BOP drills are scheduled and carried out.
3. Ensure that appropriate well control equipment is available, tested and ready for use.
4. Assist in the direct application of preventive and planned maintenance programs.
5. Assist in keeping equipment and systems operational and ensure that repairs are carried out.
6. Assist in monitoring that rig equipment and systems are used as designated.
7. Assist in the supervision, testing and checking of equipment and per their respective test schedules and take corrective measures when required.
8. Secure the well in an emergency situation and ensure that the well is properly shut in.
9. Assist in directing kill operations and make recommendations to the Tool Pusher.
10. Direct crew in other emergencies. Assess situation and evaluate how to most effectively direct and control the situation.
11. Take initial steps to stabilize the situation and inform the Tool Pusher; standby for orders and assist when needed.
12. Provide leadership in Tool Pusher's absence by using good judgment, demonstrating maturity. Protect crews, environment, rig and the Operator's interests.
13. Make recommendations for parts to be requested, equipment to be repaired and alternative procedures that may be helpful.
14. Maintain good communication of information to update the Tool Pusher and prepare handover notes.
15. Assist the Operator in efficient use of rig in conjunction of drilling program and knowledge of available equipment.
